Tools & Platforms	Git, GitHub, Visual Studio Code, Figma (basic)
Concepts	UI/UX Principles, Web Performance, Cross-browser Compatibility, Mobile-first Design

PROJECTS

Atik Bilao Website

HTML · CSS · JavaScript

- Developed a promotional website for a local food business with a fully responsive layout.
- Implemented smooth scroll interactions and a structured menu display for improved user experience.
- Ensured cross-device compatibility using a mobile-first design approach.

Funeraria Gomez Web App

HTML · CSS · JavaScript

- Built a service management web application for a local funeral home business.
- Designed a clean interface allowing clients to browse service packages and submit inquiries online.
- Focused on accessibility and ease of navigation for a diverse user base.

Personal Web Portfolio

HTML · CSS · JavaScript · React JS

- Created a fully custom dark-themed developer portfolio to showcase skills and projects.
- Implemented scroll-triggered animations, responsive hero layout, and a photo upload feature.
- Achieved high performance and clean code architecture using React component structure.

Gesture-based Drawing Tool

JavaScript · Canvas API

- Developed an interactive drawing application using the browser Canvas API.
- Integrated hand gesture recognition to allow touchless drawing interactions.
- Demonstrated proficiency in advanced JavaScript and browser-native APIs.
